1. Course Details:

Course Code : CTIA-005
Course Title : CompTIA Server+
Course Duration : 5 Days

2. Course Overview

- Server+ is a certification that validates an individual's knowledge of advanced hardware issues. The first certification of its kind in the marketplace, it helps individuals certify their advanced technical knowledge of planning, installing, configuring, and maintaining servers.

- Students will learn about server hardware technologies, including how to install, configure, and upgrade server hardware; preventive maintenance, troubleshooting, and disaster-recovery techniques for servers. Server+ Certification course.

3. Learning Outcomes:

- Describe different types of servers and identify hardware and software components used in servers
- Install servers into a network environment
- Configure servers for optimal performance
- Employ preventive maintenance measures to keep servers running at acceptable performance levels
- Upgrade server hardware and software
- Troubleshoot problems with server hardware and software
- Identify and explain disaster-recovery concepts and techniques

4. Course Contents:

- Module 1: Introduction to Servers
- Module 2: Installing Servers
- Module 3: Configuring Servers
- Module 4: Maintaining Servers

- Module 5: Upgrading Server Components
- Module 6: Exploring Environmental Issues Surrounding Servers
- Module 7: Troubleshooting Servers
- Module 8: Exploring Disaster Recovery Concepts and Techniques

5. Our Methodology:

- Make coaching and monitoring innovative and using modern
- Media training also using on the go training by using interactive means and focusing on
- The exercises, practical applications and real situations study.
- Live delivery method, instructor-led training.
- Experienced consultant, trainers, and professional.
- Qualified trainer with high-level experience

6. Attendance Reports:

- Send daily attendance reports to trainingdep
- Send full attendance report to training dep. by the end of thecourse
- Attend 100 % from the course days also providedaily
- Issue attendance certificate for participant who attend minimum 80% from the course duration

7. Pre/Post Reports:

- Pre- assessment before starting training.
- Post assessment after finish training
- Full report for the deferent between Pre-& Post assessment

8. Who Should Attend?

- IT professionals, network support technicians, and server hardware specialists having 2 years of experience in the information technology industry and hands-on experience with the installation, configuration, diagnosis, and troubleshooting of PC hardware.
