4. Course Contents:

- Introduction to Cloud Computing
- Who's Who in Today's Cloud
- The Business Case for Going to the Cloud
- The Evolution of Cloud Computing
- Building Cloud Networks

- Federation, Presence, Security, and Privacy in the Cloud
- Cloud Computing Standards and Best Practices
- End-User Access to Cloud Computing
- Mobility and the Cloud

5. Our Methodology:

- Make coaching and monitoring innovative and using modern
- Media training also using on the go training by using interactive means and focusing on
- The exercises, practical applications and real situations study.
- Live delivery method, instructor-led training.
- Experienced consultant, trainers, and professional.
- Qualified trainer with high-level experience

6. Attendance Reports:

- Send daily attendance reports to trainingdep
- Send full attendance report to training dep. by the end of thecourse
- Attend 100 % from the course days also providedaily
- Issue attendance certificate for participant who attend minimum 80% from the course duration

7. Pre/Post Reports:

- Pre- assessment before starting training.
- Post assessment after finish training
- Full report for the deferent between Pre-& Post assessment

8. Who Should Attend?

- IT manager who is determining whether to use cloud services, an implementer
- Who needs to understand the cloud?
- Sales or marketing professionals who sell cloud services
